

Hope will find a way

Intro: Am Em F G

Guitar: capo 3, Cm/Eb

VERSE 1:

I can see a glimpse of Your goodness in the beauty of the wide open sea
 I can see a ray of Your mercy, liquid light cascading through the clouds to me
 Everywhere I go I'm followed by this rainbow full of colors that brightly
 Speak your love for me and I can almost reach out and touch it

Pre-Chorus:

I can almost see Your face
 and I can almost see this world full of grace like it was meant to be

CHORUS:

Goodness and mercy and peace flowing through the land
 From the heights of the mountains to the depths of the heart of the sea
 Troubles like clouds blown away
 If I could only capture this vision today
 And sing it like healing to every broken heart
 I know that hope—will find a way!

VERSE 2:

I can feel the rain, its fallin', like whispers from heaven to me
 Carried by the wind, its callin', its coming to set my soul free
 Everywhere I go I'm followed by this rainbow full of colors that brightly
 Speak your love for me and I can almost reach out and touch it

Pre-Chorus

CHORUS

BRIDGE:

In the moonlight I lie back, lost in the endless stars
 They are timeless in their beauty, reminds me of who You are, of who You are
 Of who You are—

Hope will find a way
